

## Title of the Project:

**Analyzing** the districts of **Delhi**

where **crimes** are frequently occurring  
and using that analysis to make  
a place **safer**.

## Project Summary:

This **Project** analyses 5 broad categories of **crimes** occurring **frequently** around the **districts of Delhi City** and uses that analysis to reach to some **crime prone areas** where these **heinous** happenings occur.

At first the **5 broad categories** are divided into **sub narrow categories** and each district is compared for the frequency of a particular crime. Then it is **compared** with the frequency of crimes occurring in the same districts for the previous **4-5 years**. This further **empowers** us to narrow down the **measures** and use our **forces** for the very purpose of **curbing** that crime in that particular area.

## Purpose of the Project:

**Delhi**, a **crime hub** of our country, leads other cities in **heinous happenings**. Looking at this grim picture of our **country's capital**, this project helps in highlighting those **districts** which are **prone** to crime and the **comparison** of each with its previous years occurring helps us **finding** the **measures** that can be helpful for our **law enforcement** agencies to **implement** them and make our **dwelling city safer** to live.

All the crimes are divided into five broad categories

1

- Crimes against women

2

- Crimes against Children

3

- Human Trafficking

4

- Homicides

5

- Robbery, Theft, Dacoity, Burglary

For each category, separate dataset has been prepared  
Like this given below.

	2020			2019			2018			2017			Total(2017-20)					
													Categories

This Word Cloud depicts that our National Capital of India is the National Crime Capital as well

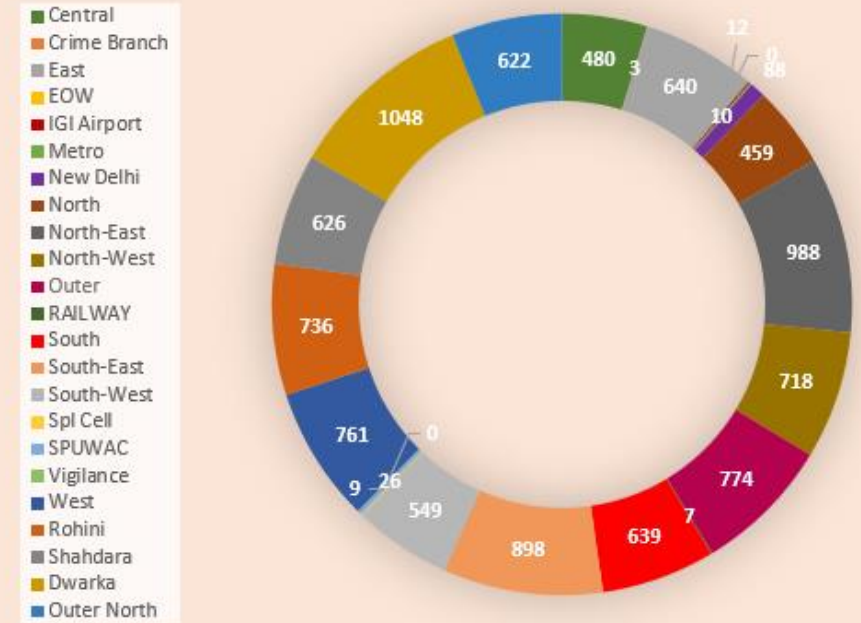

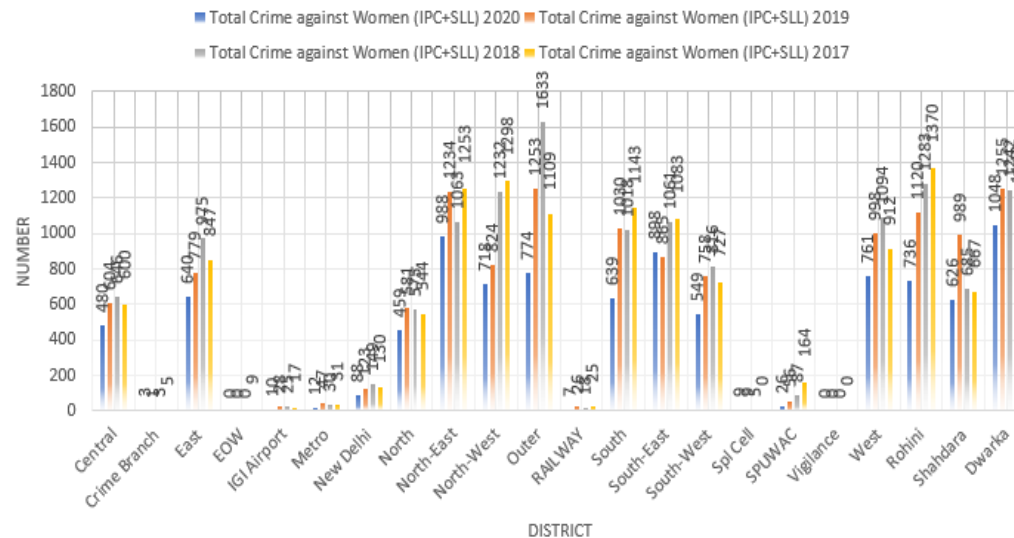

# 1. Crimes Against Women

Analyzing all the crimes against women occurring in Delhi, this donut chart shows that North-West district is in lead where the rate is the highest.

Total Crime against Women in Delhi (IPC+SLL)

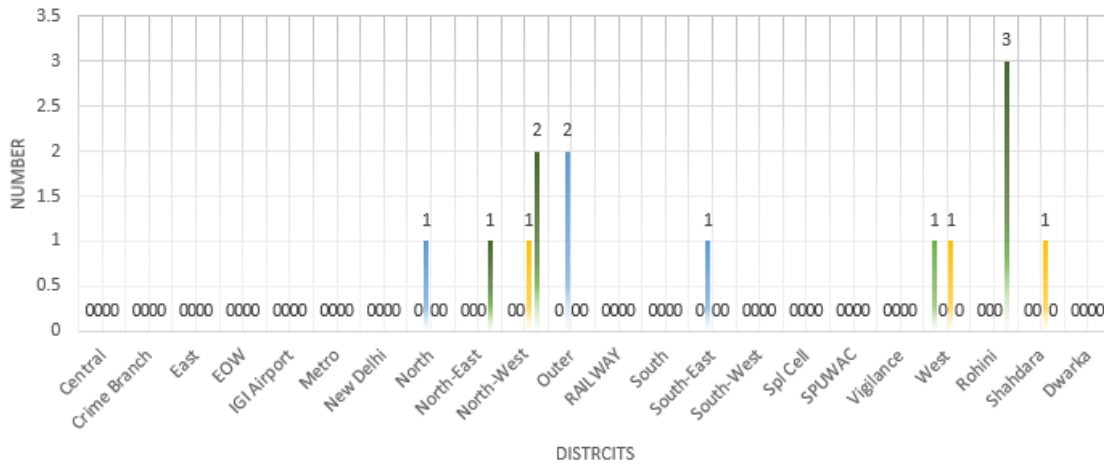

TOTAL CRIME AGAINST WOMEN (IPC+SLL)

This multiple bar graph shows that in last 4 years, the number of crimes against women has decreased, but the outer, North-west, and Rohini districts still needs to improve a lot.

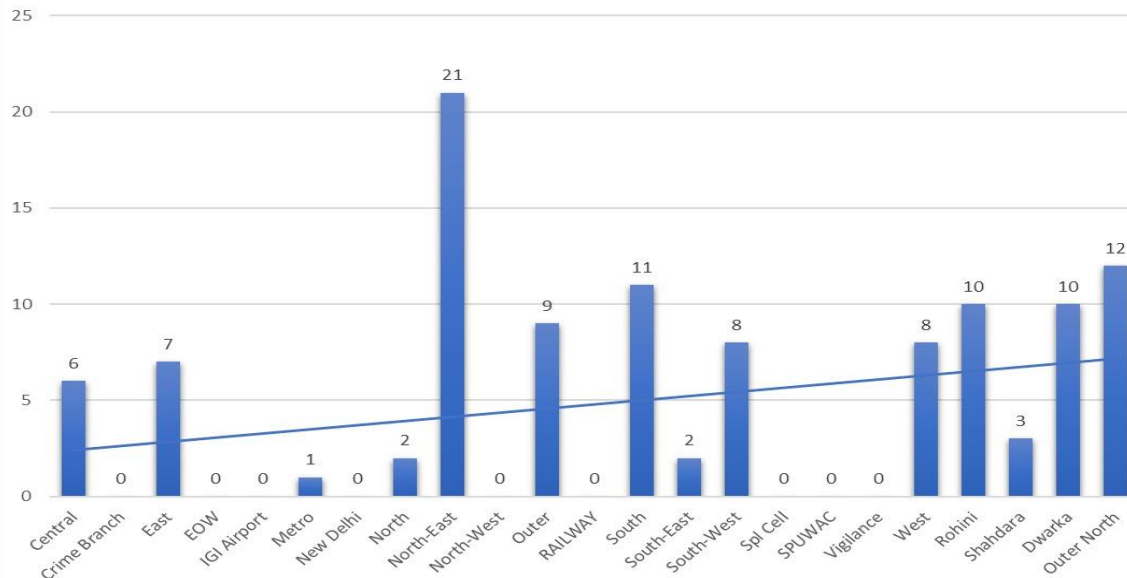

## MURDER WITH RAPE/GANG RAPE

■ Murder with Rape/Gang Rape 2020 ■ Murder with Rape/Gang Rape 2019  
■ Murder with Rape/Gang Rape 2018 ■ Murder with Rape/Gang Rape 2017

Sub-category- Rape is more frequently seen in the areas of Dwarka, North-east, south-east, central, west and so on with the help of this bar and line graph.

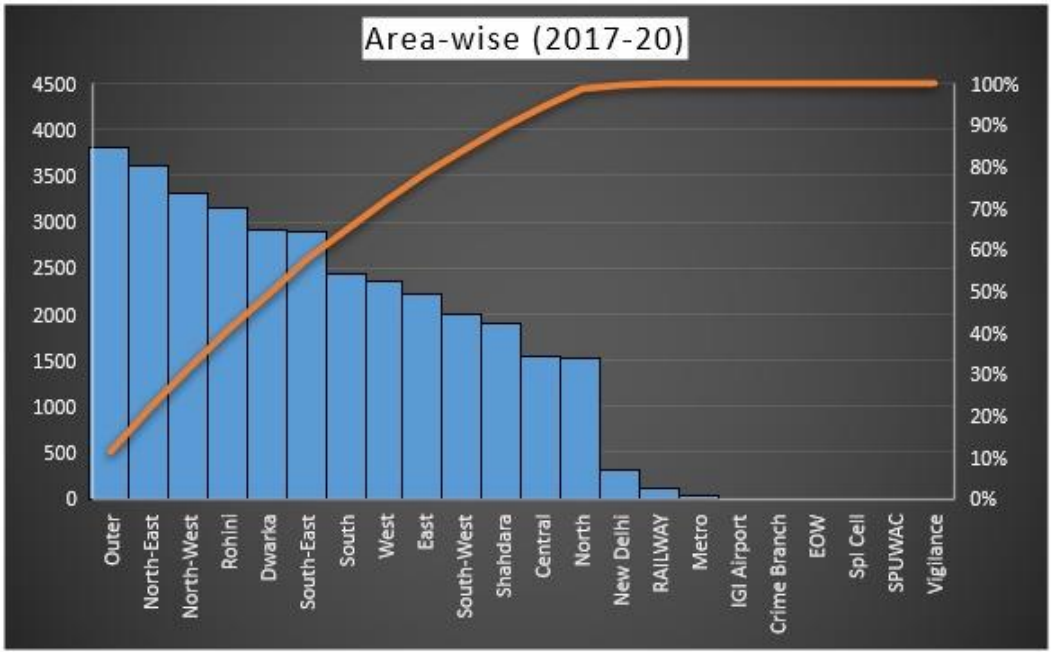

## Dowry Deaths (Sec. 304B IPC)

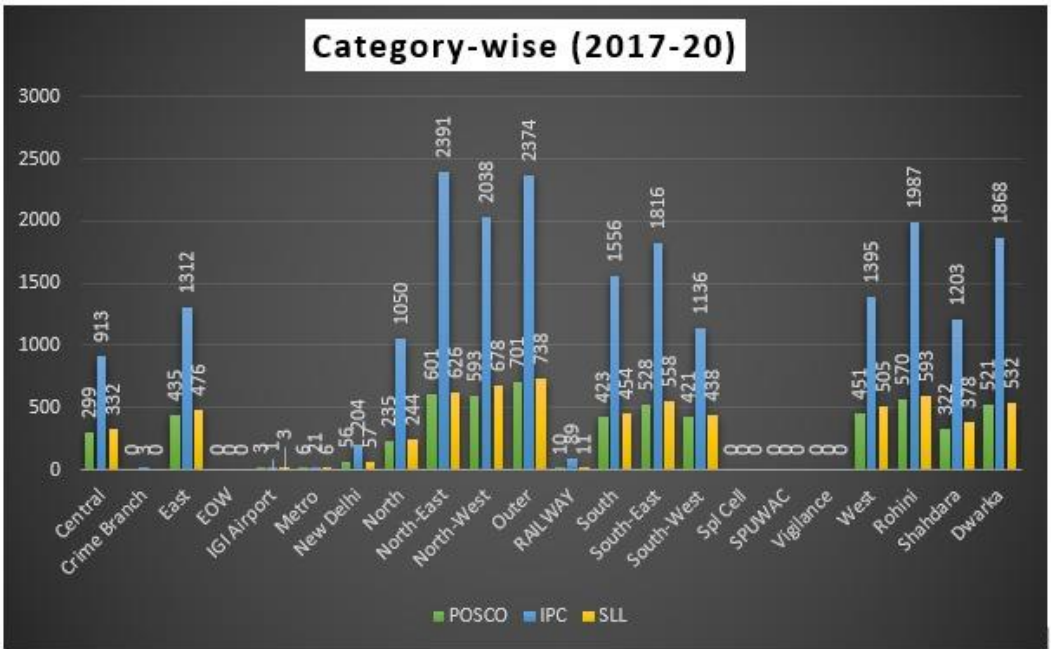

This bar and line graph shows that North-East Delhi play a key role in dowry deaths, and central, east and west districts are not far behind.

## 2. Crimes Against Children :

This Bar and line graph depicts the total number of crimes against children happening around the districts of Delhi.

This triple bar graph clearly depicts that the crimes of IPC category is higher all over Delhi. Also, North-East and outer areas are worst places in terms of children's safety.

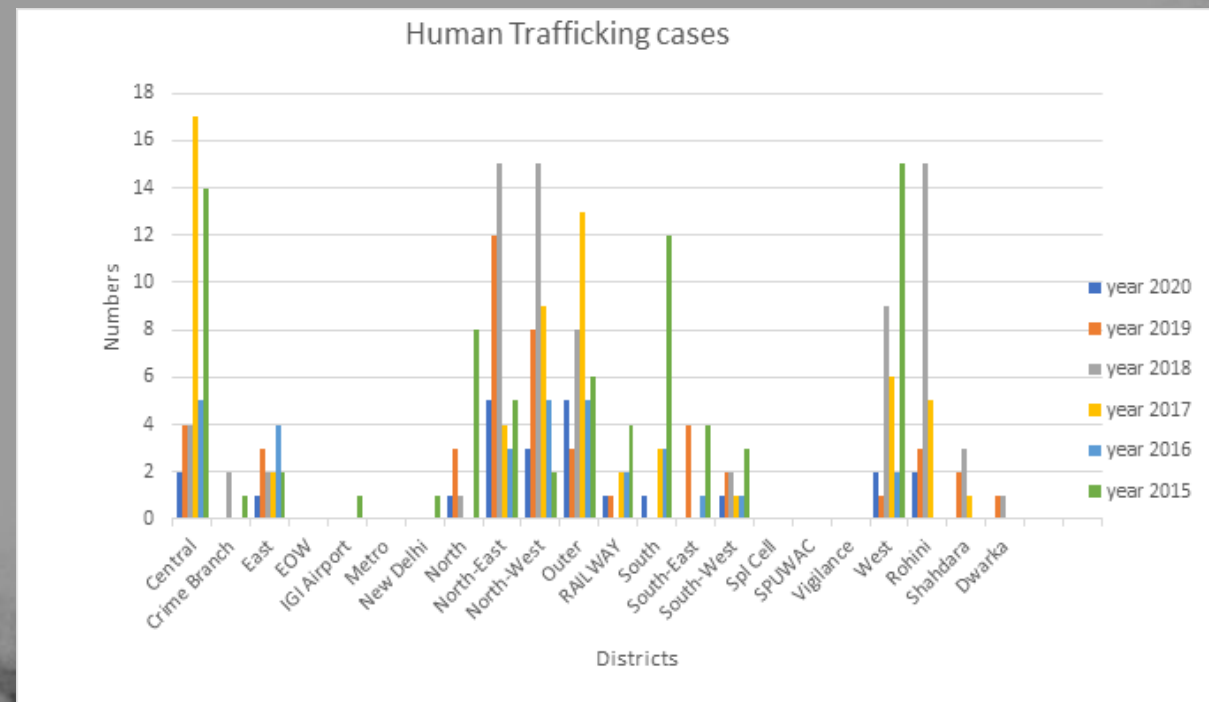

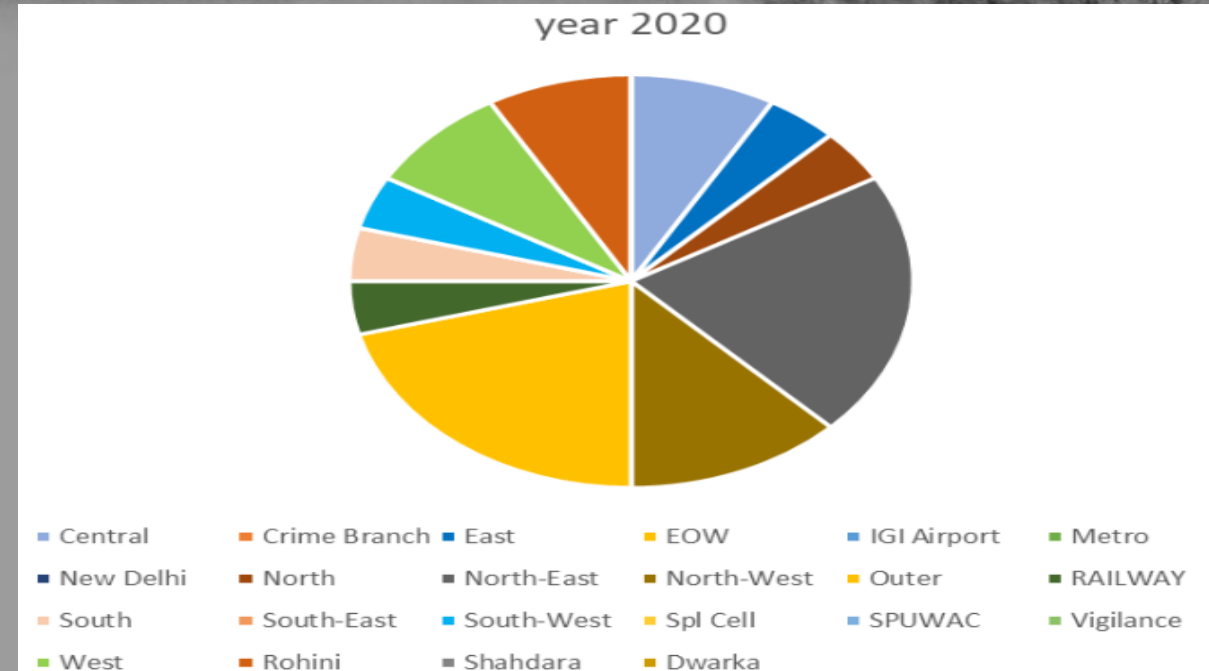

### 3. Human Trafficking

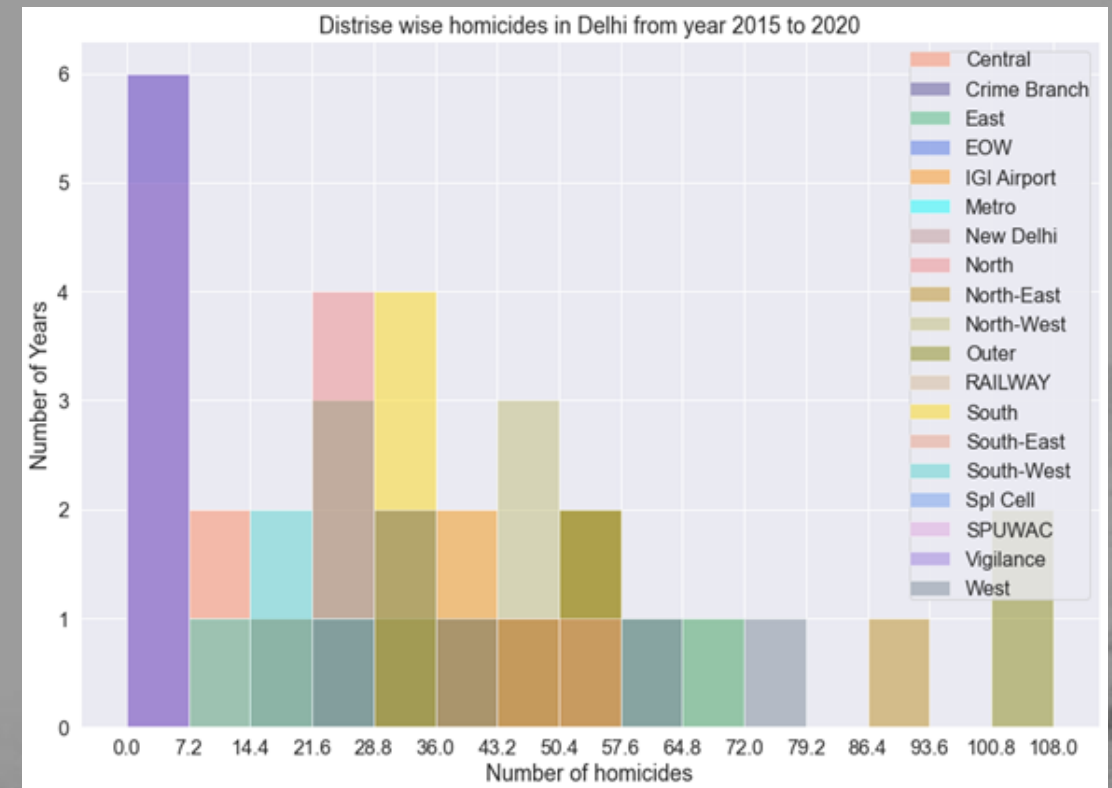

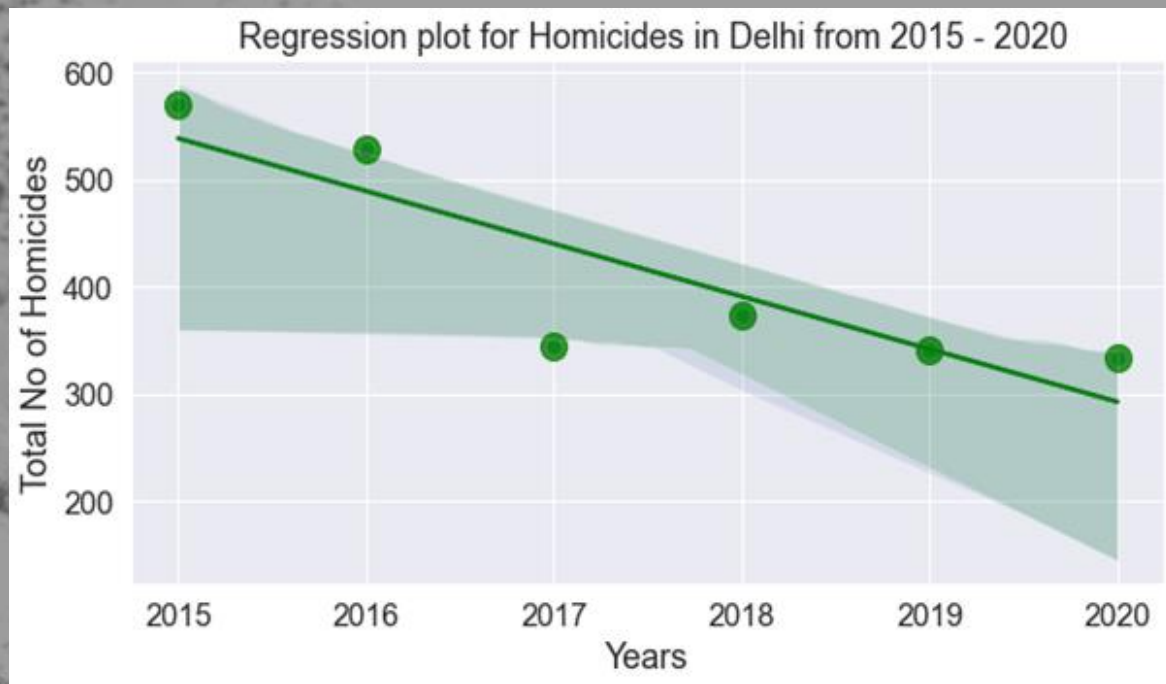

This Pie Chart is showing Human Trafficking cases in 2020 in different districts of Delhi. Where, North-East, North-West and areas of West play the major role, while Rohini, New Delhi and Central Delhi follows behind.

Below it, The grouped bar graph shows the human trafficking cases from 2015-2020 occurred in different districts of Delhi. Which clearly shows that in the past six years Delhi has reduced trafficking humans.

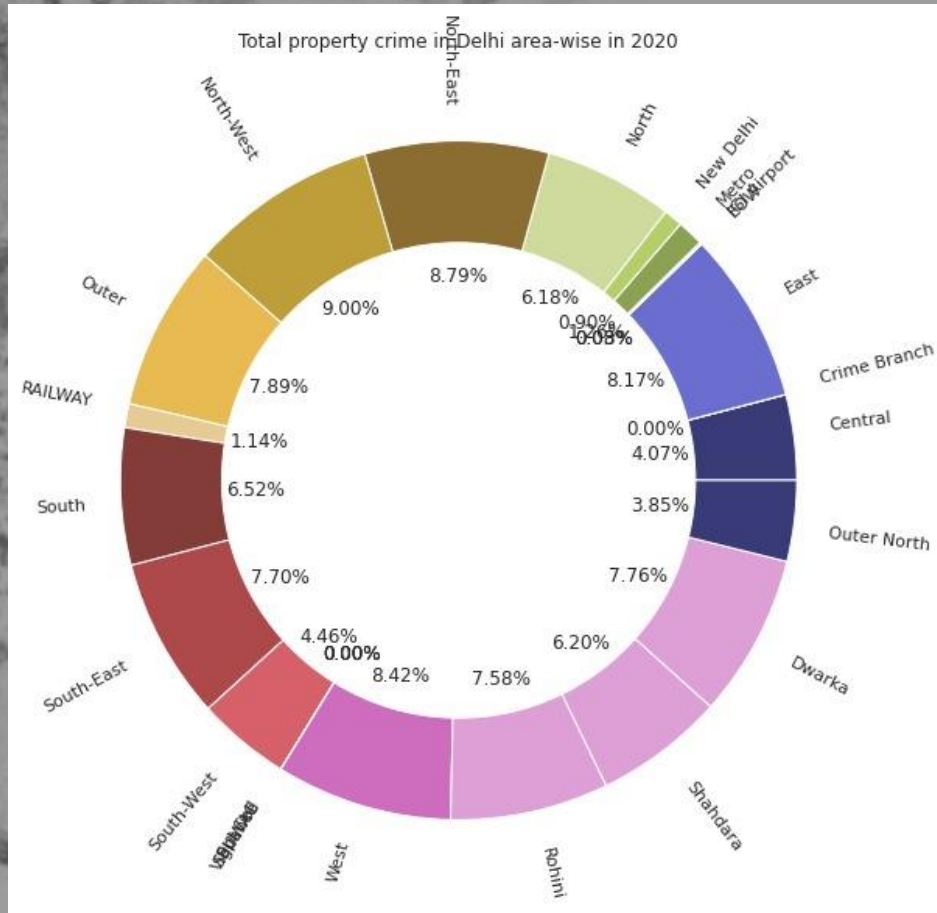

## 4. Homicides

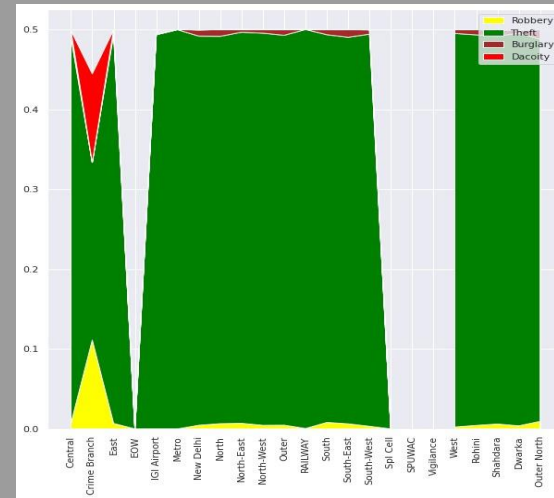

- The Stacked Bar graph in the right shows how different districts of Delhi lying under the cloud of homicides happening round the clock.
- While the regression plot in the left shows how in 2020 we have seen a sharp decline of homicides from 2015, yet we have a lot to achieve.

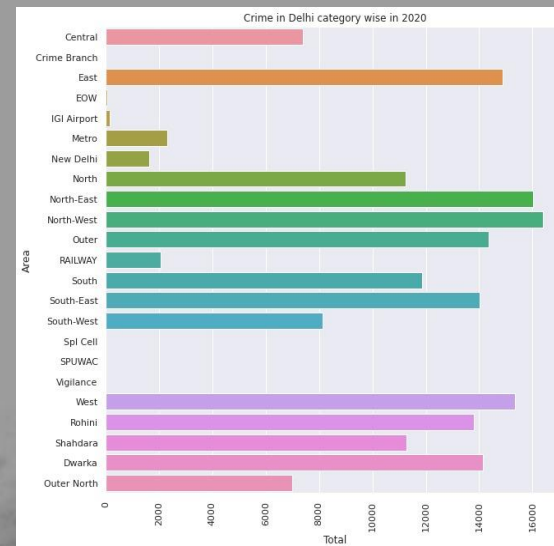

## 5. Robbery, Theft, Dacoity, Burglary

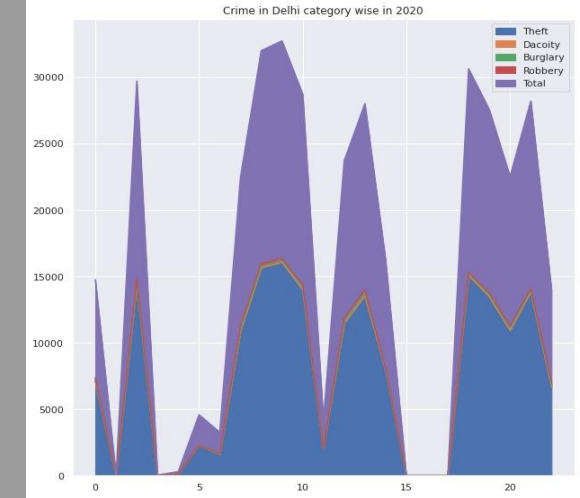

This donut chart is showing the total property crimes (Robbery, Theft, Dacoity, Burglary) in 2020 in different areas in Delhi.

This is the area plot of the crime in Delhi district-wise in 2020.

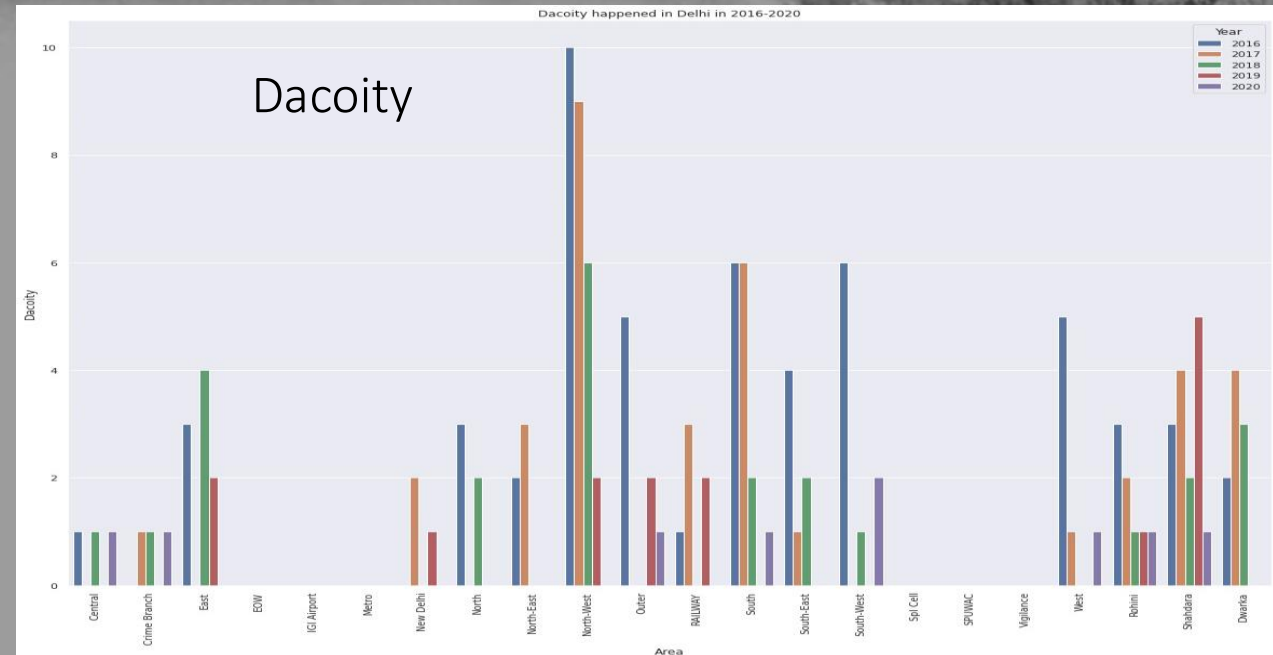

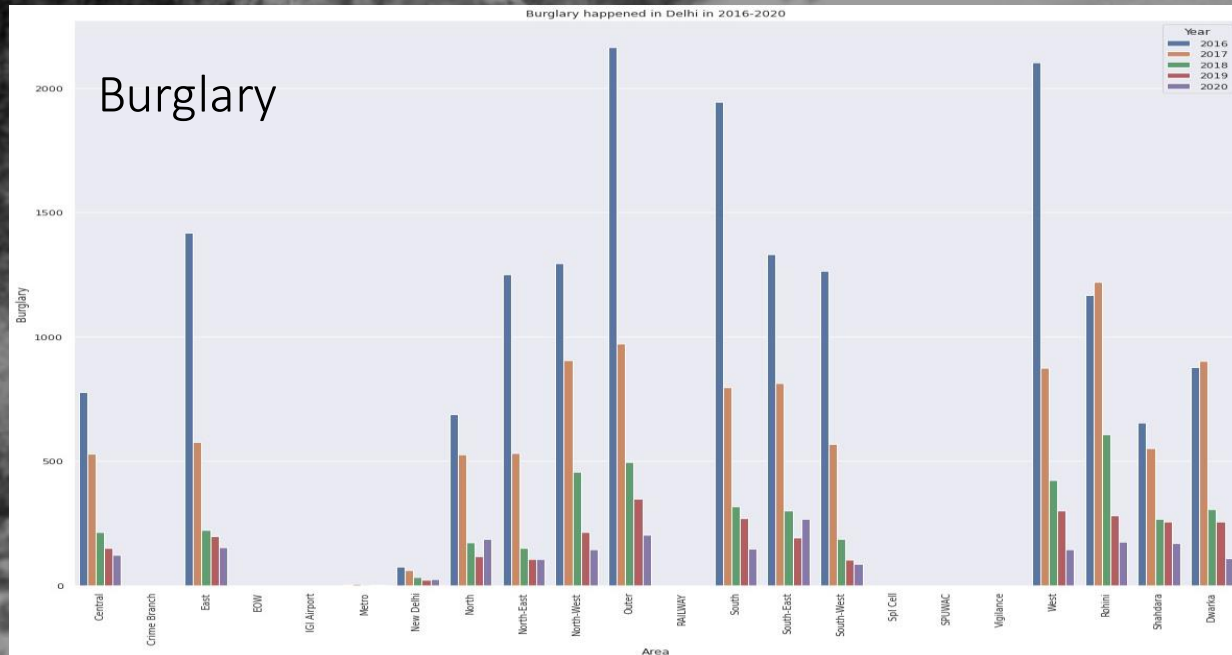

This is the bar plot of the total property crimes in 2020 in Delhi.

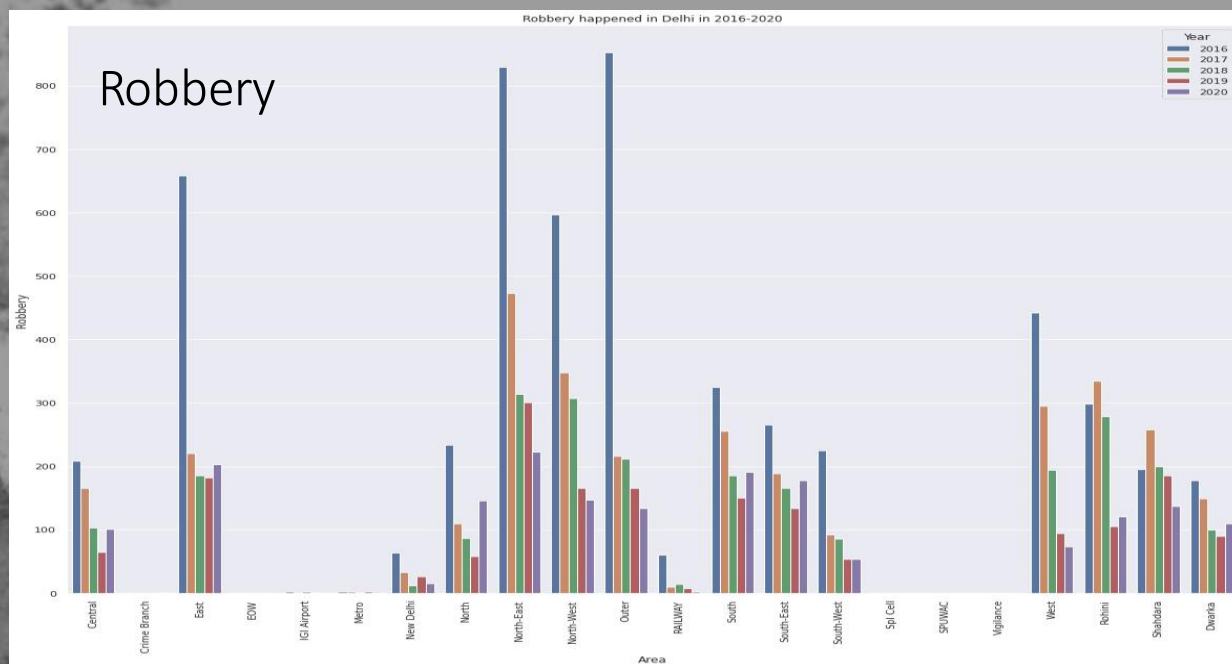

This is the area plot of the property crimes in Delhi category-wise in 2020.

## Property Crime in different areas in Delhi from 2016-2020

# Conclusion:

1. Analysis for women category suggests us to have more women personnel in our police services and there should be more patrolling vans in the areas like Dwarka, East, and West districts. Also, we should have more CCTV surveillance in the areas where population is sparsely located.
2. Analysis of crimes against children suggests us that outer, north-east, north-west, Rohini, Dwarka are our Areas of Concern and they need special attention to make these abodes safer for our future.
3. When it comes to trafficking in humans, Delhi allows us to be hopeful as we have seen a decline in the cases in last six years, still we need to have an attentive eye on Central , North-East, North-west areas.
4. Further analysis of homicides in Delhi city compels us to take all the districts evenly under the umbrella as the district wise analysis shows very slight differences in the cases whether the location is sparsely populated or congested. Overall number of homicides in last 6 years is 2491 which is scary.
5. In the last category we Analyzed that in the areas which are heavily populated thefts are more prevalent while which are sparsely populated, robbery, burglary and dacoity are more prevalent. All we can suggest with this is "Take Care of Your Wallet".

Thank You
